P. 3	Quick Start: Download & Install	Get the software, Windows security prompt, mobile app
P. 4	Quick Start: Sign-In & Activation Code	Sign in, create your company, free trial
P. 5	Quick Start: First Farm & First Cycle	Add farm, house and place chicks
P. 6	Company Owner Guide	Daily oversight, approvals, and branding
P. 7	Supervising Veterinarian Guide	Technical oversight and vaccine plans
P. 8	Farm Engineer Guide	A complete working day in the house
P. 9	Field Veterinarian Guide	Inspection, treatment, safety periods
P. 10	Accountant Guide	Cash advances, sales, payroll
P. 11	Farms, Barns & Multiple Engineers	Assign engineers and replace with records kept
P. 12	The Four Production Sectors & Cycles	Broiler, Sasso, Layer, Breeder
P. 13	The Daily Barn Report	Mortality, feed, water, weights
P. 14	Health Protocols, Vaccines & Safety Period	Blocks marketing during treatment
P. 15	Egg Store Ledger, Sales & Dispatch Vouchers	Grading, balances and sales
P. 16	Attendance System & Payroll Reports	Three groups and missed-day alert
P. 17	Petty Cash Custody & Financial Vouchers	Spending, settlement, approval
P. 18	Consolidated Reports & Official Dual Header	Performance indicators, printing with your logo
P. 19	Team Management, Backups & Devices	Manage accounts and protect your data
P. 20	What Should I Do If... (1)	Password, safety period, missed attendance
P. 21	What Should I Do If... (2)	Cash advance, new device, backup restore
P. 22	Everyday Farm Situations & Practical Steps	Practical steps for four common cases
P. 23	Farm & Accounting Glossary	Plain explanations of terms
P. 24	Official Support & Contact Channels	Official ways to reach us

All rights reserved - Reesh System 2026

Quick Start: Download & Install

Running Reesh on PC, Android phone, and web browser.

Sec 1

1 Open the Official Download Portal

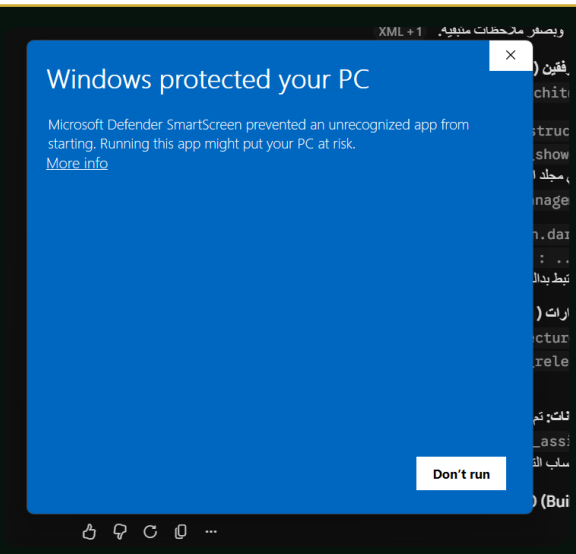

Visit the official Reesh portal (reesh-erp.vercel.app) to download the Windows installer, Android APK, or open the web app.

2 Install on PC & Bypass Windows Prompt

When launching the installer, click "More info" then "Run anyway" on the blue Windows prompt to complete setup.

3 Install on Your Android Smartphone

Open the downloaded APK on your phone and allow installation once to start logging from inside the barn.

Screenshot: Windows installation prompt (Click More info then Run anyway)

Operational Tip

Managers and accountants work on PC while engineers record from their phones inside the barn with instant sync.

All rights reserved - Reesh System 2026

Quick Start: Sign-In & Activation Code

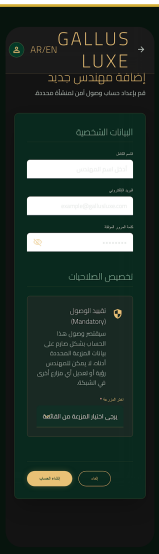

Sign-in steps and instant company setup with an activation code.

Sec 2

1 Sign In to an Existing Account
Enter your email address and password on the login screen and press "Sign In".

2 Register a New Company with Activation Code
Click "Register New Company with Activation Code", verify your code, and enter company and owner details.

3 Request a Free 21-Day Trial Code
Click the WhatsApp link at the bottom of the login screen to request a free 21-day trial code.

Actual App Screenshot: Sign-in and new company self-registration screen

Moving Your License to a New Device
Your code covers a set number of devices per tier; when replacing hardware, your slot transfers for free.

All rights reserved - Reesh System 2026

Quick Start: First Farm & First Cycle

Four steps to launch your first flock cycle.

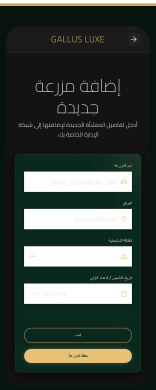

Sec 3

1 Add Farm & Define Barn Count

Go to "Farms" -> "Add Farm", enter farm name, location, barn count, and bird capacity per barn.

2 Open a New Cycle & Assign Engineer

From "Cycles", choose breed, placement date, chick count, initial age, and assign the farm engineer.

Actual App Screenshot: Farm configuration and flock cycle setup

Stage (Hypothetical)	Logged Details	Responsible Role
Add Farm	Al-Amal Farm - Barns 1 & 2 (25,000 birds)	Owner / Supervisor
Place Cycle	24,500 chicks - Ross 308 - Day 1 age	Supervising Vet
Daily Logging	Daily barn report & worker attendance	Farm Engineer

All rights reserved - Reesh System 2026

Company Owner Guide

Complete executive control across all farms and accounts.

Sec 4

1 **Monitor Consolidated KPIs & Alerts**
View total live birds, mortality rates, FCR, and health/financial alerts across all farms on one screen.

2 **Manage Staff, Vet Attendance & Company Logo**
Add vets, engineers, and accountants, log veterinarian attendance, and upload your logo for all PDF reports.

Actual App Screenshot: Executive dashboard and real-time KPIs

Company Owner Authority
The Company Owner holds full administrative, financial, and technical authority with anti-lockout protection.

All rights reserved - Reesh System 2026

Supervising Veterinarian Guide

Technical supervision, cycle management, and health protocols.

Sec 5

1 **Track Growth Against Breed Standards**
Open the Performance Card to benchmark actual body weights and feed intake against breed standards.

2 **Assign Engineers & Record Attendance**
Assign engineers to farms, record their daily attendance, and approve missed-day report requests.

Actual App Screenshot: Performance curves and preventive health plans

Early Clinical Warning
A sudden drop in barn water intake precedes clinical disease by 24-48 hours; monitor it daily.

All rights reserved - Reesh System 2026

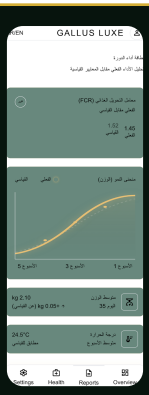

Farm Engineer Guide

Daily barn execution workflow from morning to evening.

Sec 6

1 **Log Daily Barn Report & Worker Attendance**
Record morning/evening mortality, feed consumed, water, temperature, weights, and worker attendance.

2 **Egg Store Movements & Petty Cash Expenses**
Log daily egg collection/dispatches and record emergency expenses from your cash custody.

Actual App Screenshot: Daily barn report entry screen

Time	Engineer Daily Task	Screen in App
07:00 AM	Inspect barns, count mortality, check feed & water	Field Inspection
08:30 AM	Record daily farm worker attendance	Worker Attendance
02:00 PM	Submit daily report, treatments & sample weights	Daily Report
06:00 PM	Log egg inventory movements & custody expenses	Egg Store / Custody

All rights reserved - Reesh System 2026

Field Veterinarian Guide

Clinical inspection, treatment plans, and withdrawal safety.

Sec 7

1 **Monitor & Update Flock Health Protocol**
Review scheduled vaccines by bird age and add emergency treatments with exact dosage and method.

2 **Set Drug Withdrawal Days & Log Engineer Attendance**
Specify withdrawal days for antibiotics to block early marketing, and log engineer attendance during visits.

Actual App Screenshot: Flock vaccination schedule and health protocol

Food Safety & Marketing Hold
A prominent red alert displays across the cycle and daily report throughout the active drug withdrawal window.

All rights reserved - Reesh System 2026

Accountant Guide

Treasury, custody settlement, vouchers, sales, and payroll.

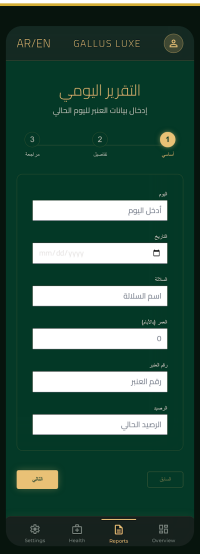

Sec 8

1 Issue, Audit & Approve Petty Cash Custody

Open engineer custody sheets, audit itemized invoices in real time, and approve final settlements.

2 Issue Financial Vouchers & Print Payroll Sheets

Issue receipt and payment vouchers with auto-wording, and print consolidated monthly attendance sheets.

Actual App Screenshot: Treasury, petty cash custody, and vouchers

Strict Read-Only Isolation on Technical Data

Accountants can view and print all cycle and attendance reports without edit access to biological data.

All rights reserved - Reesh System 2026

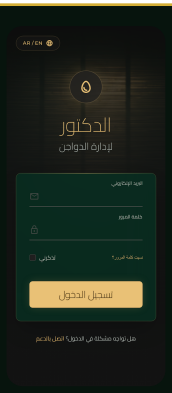

Farms, Barns & Multiple Engineers

Co-engineer assignments and smart replacement lifecycle.

Sec 9

1 **Assign Co-Engineer or Replace Existing Engineer**
When selecting a farm with an active engineer, choose "Co-Engineer" for shared access or "Replace" to swap.

2 **Prorated Attendance Calculation for Replaced Engineers**
Past attendance logs remain preserved with a "Former Engineer" badge and prorated day counts for fair payroll.

Actual App Screenshot: Engineer management and farm assignments

Assignment Type	Login Access	Monthly Attendance Sheet Visibility
Primary Engineer	Active - Full Farm Access	Listed for full active period
Co-Engineer	Active - Full Farm Access	Listed alongside primary engineer
Replaced (Former)	Login Revoked Immediately	Listed as "Former Engineer" for worked days

All rights reserved - Reesh System 2026

The Four Production Sectors & Cycles

Specialized workflows for Broilers, Sasso, Layers, and Breeders.

Sec 10

1. **White Broilers & Sasso Colored Broilers**
   Instant calculation of FCR and live weights compared against standard breed curves (Ross 308, Cobb 500, Sasso).

2. **Commercial Layers & Broiler Breeders**
   Tracks Rearing, Pre-Lay, and Production stages, separates male/female breeder metrics, and manages hatchery batches.

Actual App Screenshot: Active flock cycle monitoring and growth KPIs

All rights reserved - Reesh System 2026

The Daily Barn Report

Fast daily entry with automated balance cascade.

Sec 11

1 Automatic Bird & Silo Balance Propagation

Today report automatically pulls yesterday closing stock and deducts mortality and feed without manual math.

2 One-Time Approved Backdated Report Entry

If a day is missed due to offline conditions, request approval; once logged, subsequent days re-cascade automatically.

Actual App Screenshot: Daily barn details and feed consumption

Daily Metric	Logged Value (Example)	System Outcome
Day & Night Mortality	18 Birds	Auto-deducted from barn stock & cumulative %
Feed Consumed	1,450 kg	Auto-deducted from silo stock & FCR updated
Water & Weights	2,900 L / 1,890 g	Benchmarked against breed standard curve

All rights reserved - Reesh System 2026

Health Protocols, Vaccines & Safety Period

Smart treatment matching, 24h vaccine alerts, and withdrawal holds.

Sec 12

1 24-Hour Advance Vaccination Reminder

Alerts you 24 hours prior to any scheduled vaccine to prepare cold storage and stop water sanitizers.

2 Smart Commercial Substitute Matching & Withdrawal Guard

Matches logged treatments to protocol items and enforces statutory withdrawal days before marketing.

Actual App Screenshot: Health protocol execution and vaccine tracking

Active Drug Withdrawal Marketing Hold

While a withdrawal period is active, a red warning bar displays the exact clearance date required before sale.

All rights reserved - Reesh System 2026

Egg Store Ledger, Sales & Dispatch Vouchers

Daily egg inventory matrix and official dispatch vouchers.

Sec 13

1. **Daily Egg Store Balance Matrix**
   Automatically computes: (Opening Stock + Daily Barn Production - Dispatched/Sold = Closing Store Balance).

2. **Negative-Balance Guard & Printed Dispatch Voucher**
   Prevents dispatching more than available stock and prints an official PDF voucher with vehicle plate and driver phone.

Egg Grade	Yesterday	Produced	Dispatched	Current Balance
Sound Table Eggs	140 Cartons	+85 Cartons	-120 Cartons	105 Cartons
Hatching Eggs	95 Cartons	+60 Cartons	-75 Cartons	80 Cartons
Cracked / Loose	18 Trays	+6 Trays	-20 Trays	4 Trays

Automatic Carton & Tray Conversion
Standard carton = 12 trays × 30 eggs = 360 eggs; the system converts between cartons, trays, and loose eggs.

All rights reserved - Reesh System 2026

Attendance System & Payroll Reports

Three staff tiers, missing-day banner, and payroll exports.

Sec 14

1 **Three Dedicated Attendance Screens**
Each staff tier has a dedicated ledger; no employee can modify their own attendance record.

2 **Consolidated Monthly Reports & Missing-Days Banner**
The top banner highlights unrecorded dates from the last 14 days for 1-click entry, with monthly PDF exports.

Staff Category	Recorded By	Audited & Payroll Processed By
Farm Workers	Farm Engineer	Owner, Supervising Vet & Accountant
Agricultural Engineers	Supervising Vet, Field Vet or Owner	Company Owner & Accountant
Veterinarians	Company Owner or Supervising Vet	Company Owner & Accountant

Decoupled Monthly Attendance
Attendance operates continuously across the calendar month even between flock cycles during barn cleanout.

All rights reserved - Reesh System 2026

Petty Cash Custody & Financial Vouchers

Complete financial control from advance issuance to approval.

Sec 15

1 **Independent Initial Advance & Receipt Linking**
Initial custody advance is stored independently and automatically summed with linked approved receipt vouchers.

2 **Automated Arabic Wording & Accountant Approval**
Voucher amounts are automatically written in formal words, and the accountant audits invoices for final approval.

Voucher #	Date	Expense Description	Cost Center	Amount
#00101	2026-10-22	Standby generator diesel	Generator	EGP 4,200
#00102	2026-10-25	Feed belt & cooling repair	Barn 1	EGP 2,450
#00103	2026-10-28	Sanitizers & cleaning supplies	General Farm	EGP 1,500

All rights reserved - Reesh System 2026

Consolidated Reports & Official Dual Header

Your company logo and farm name on every printed PDF header.

Sec 16

1 Standardized Dual-Logo Header

Arabic reports place Reesh logo on the right and Company logo on the left (automatically reversed in English).

2 Three Centered Header Lines

(1) Reesh Poultry Farm Management, (2) Your Company Name, (3) Farm Name, Report Title, and Date.

Left Side (in English)	Center Column (3 Hierarchical Lines)	Right Side (in English)
Official Reesh System Logo	1. Reesh Poultry Farm Management 2. Your Company Name 3. Farm Name & Report Title	Your Custom Company Logo

One-Click Consolidated PDF Reports

All roles (Owner, Supervisor, Vet, Engineer, Accountant) can export consolidated cycle PDFs anytime.

All rights reserved - Reesh System 2026

Team Management, Backups & Devices

Upload company logo, save local backups, and manage accounts.

Sec 17

1 **Upload Company Logo from Settings**
Click "Upload Logo" in Settings and select your image file to apply it across the app and all PDF reports.

2 **Create & Restore Local Backups**
From the Backup screen, export a password-protected backup file of your company data and restore it anytime.

Feature	Path in App	Benefit
Company Logo	Settings -> Company Logo	Customizes branding across UI and PDF reports
Team Accounts	Engineers / Vets / Accountants	Add, edit, or smart-replace staff safely
Local Backup	Settings -> Backup	Save an extra protected copy on your device

All rights reserved - Reesh System 2026

What Should I Do If... (1)

Quick step-by-step solutions for common situations.

Sec 18

1. **Forgot a Password or Need to Update Account Info?**
   The Company Owner or Supervisor can edit staff accounts from the management screen or contact WhatsApp support.

2. **A Red "Drug Withdrawal Hold" Alert Appeared?**
   Do not market birds or eggs from that barn until the clearance date shown on the red alert banner passes.

3. **Forgot to Record Attendance Yesterday?**
   Open the Attendance screen and tap the missed date chip in the top amber banner to record it immediately.

4. **Missed Entering a Daily Barn Report for a Past Day?**
   Tap "Request Missed Day" on the Daily Report screen; once approved by the supervisor, log it and balances cascade.

All rights reserved - Reesh System 2026

What Should I Do If... (2)

Handling cash custody, subscriptions, devices, and medications.

Sec 19

1. **Need to Increase an Engineer Cash Custody Mid-Cycle?**
   In Treasury & Custody, go to "Receipt Vouchers" and issue an approved receipt linked to the open custody sheet.

2. **Your 21-Day Free Trial Ended?**
   All your data is safe; contact us on WhatsApp for your license code and enter it to continue immediately.

3. **Replaced Your Phone or Computer?**
   Message support on WhatsApp to reset your device counter and activate your new device with the same code.

4. **Engineer Entered Multiple Drugs with (+) in One Row?**
   Tap the "Auto-Split" button next to the field to separate each drug into its own row with distinct withdrawal days.

All rights reserved - Reesh System 2026

Everyday Farm Situations & Practical Steps

Coordinated workflows across engineer, vet, accountant, and owner.

Sec 20

1. **Case 1: Sudden Mortality Rise or Water Intake Drop**
   Engineer logs actual figures -> Supervisor receives alert -> Vet prescribes treatment and withdrawal hold.

2. **Case 2: Low Silo Feed Stock Balance**
   Low stock shows on daily report -> Management orders delivery -> Engineer logs shipment under "Incoming Feed".

3. **Case 3: Emergency Generator or Cooling Repair**
   Engineer pays repair from petty cash -> Logs invoice and cost center -> Accountant audits and approves settlement.

4. **Case 4: Replacing a Farm Engineer Mid-Month**
   Supervisor selects "Replace Engineer" -> System checks open custody and revokes login -> Accountant settles prorated pay.

All rights reserved - Reesh System 2026

Farm & Accounting Glossary

Plain definitions of biological and financial terms.

Sec 21

Term	Plain Meaning & Formula in the Farm
Feed Conversion Ratio (FCR)	Kilograms of feed consumed to gain 1 kg of live weight (lower means higher profitability).
European Efficiency Index (EPEF)	Global index combining livability %, average weight, age, and FCR into one score.
Hen-Day Production %	Total daily eggs produced divided by actual live females in the barn × 100.
Hatch of Fertile (HOF %)	Good hatched chicks divided by fertile eggs set in the hatchery × 100.
Drug Withdrawal Period	Mandatory waiting days after the last medication dose before selling birds or eggs.
Rearing Cost Capitalization	Accumulating pullet rearing expenses prior to lay as the capitalized flock asset cost.
Petty Cash & Tafqeet	Cash advance issued to the engineer settled via invoices, with amounts written in words.
Smart Engineer Replacement	Revoking a departing engineer login while preserving past logs for prorated payroll.

All rights reserved - Reesh System 2026

Official Support & Contact Channels
